# Installation notes for
# Inner zoom product module for Prestashop

1) Unzip and copy content of archive wpzoom.zip into your modules/ directory:

2) Then go to Back Office > Modules, find „Inner Zoom product" module and click „Install".

3) Make sure to have following setup in Preferences > Product

TIP:
If you want to delete the zoom icon, just edit wpzoom.php and delete this line:

Tools::addCSS($this->_path.'css/wpzoom.css', 'all');
